History: This message has been replied to.

FYI. Looks like Korissa Entringer is the person you can talk to at Maricopa County. Let her know that our Drinking Water folks referred her to us. Thanks!

Subject: Drinking water wells in Mesa, AZ

Kevin -

I hope you are doing well. Sorry for the delay as I have been out of the office most of the week.

Oversight of drinking water systems in the City of Mesa is with Maricopa County under delegation from ADEQ. Our contact at Maricopa County is Korissa Entringer at (602)-506-6666. You can let her know that we referred you to her.

If you needed added assistance, the drinking water program administrator at ADEQ is John Calkins (602-771-4617).

In house, the regional contact for oversight of the Arizona drinking water program is Daria Evans-Walker (972-3451).

Take care.

Corine
